The Possibility of a Big Strike Among the Nail Cutters.

ALL THE NEWS FROM NEARBY TOWNS

SPECIAL TELEGRAM TO THE DISPATCE. JOHNSTOWN, August 6.-Late last night Mr. Harry Meyer, who has charge of the carpenters' camp of Mr. Hughes at this place, shot and instantly killed a man known as James McCormick. McCormick had been around the camp the day before intoxicated, and Meyer and several other men were obliged to eject him. Last night he came again while Meyer was alone. As soon as he gained admittance he drew a revolver and swore that he would "do up" Meyer. Mr. Meyer succeeded in wrenching the pistol from him, when several of the fellow's companions joined him, and they proceeded to beat Meyer unmercifully. The light was extinguished in the melee, and one of the men said, "Wait till I get a

At this Meyer pulled a revolver and fired, the bullet entering McCormick's heart, and killing him instantly. The dead man was rec-ognized by some of his friends as James McCorognized by some of his friends as sames accor-mick, of Philadelphia. On his arm in India ink, however, is pricked the name, "M. Nolan." Meyer came here from Norristown shortly after the flood, and had charge of one of the commis-saries for some time. He is of a respectable family, and it is claimed the killing was done in self-defense.

A new arrangement was made by Secretary Kremer to-day, and no more orders are cashed at the municipal building, but after being certified to are taken to Deiberts' bank, where the Treasurer's clerks have secured quarters for this week. This action was taken by Mr. Kremer because he did not feel safe in handling so much money in the wooden building where there were crowds all the time, and but little protection. Arrangements have also been perfected by which after this week the fund will be handled by the First National Bank here. The deposits will be made here instead of Pittsburg, and checks will be drawn on this bank direct. When the \$500,000 now appropriated has been paid out, all those in the first five classes will have been paid a portion of what they are to get, and the future distribution to them will be made on the basis of their sworn wapers. Class 6, however, receives nothing in they are to get, and the future distribution to them will be made on the basis of their sworn papers. Class 6, however, receives nothing in this distribution, but it is expected that an arrangement will soon be made whereby they can also be rated and then it will require but a short time to send out checks without the parties appearing again before any committee. Judge Cummin is reported to be very much worse this evening. It is said that he cannot recover.

The Effort of the Noil Cutters to Improv Trade an Apparent Pallure.

Laughlin nailers in going out on a strike against the first attempt to manufacture the new lightweight nails for the trade will bring a new, although not unexpected complication, into the efforts of the manufacturers to better their condition, and to-morrow's meeting is expected to be the scene of a long and grave deliberation over the matter. The nailers say they will strike in every mill where an attempt is made to cut the new nails, and many say they will abandon the trade rather than submit to the further reduction is wages.

On the other hand the manufacturers say they may as well continue to cut the heavy nails as pay the increased price for the light ones, and that an increase is out of the question. A big strike is therefore among the possibilities of the situation, although the Laughlin nailers are now back at work, the firm having conceded the point for the present. condition, and to-morrow's meeting is expected
